

Stock Review

www.atlanticwestmanagement.com

San Jose Costa Rica January 2008:

Atlantic West Management S.A. (AWMG), is pleased to announce that it has acquired all of the assets of Atlantic West Management Ltd., including a nine year old well established suite of gaming and sports book related sites.

Formerly located in St. John's Antigua. AWMG has acquired all of the various divisions and subsidiaries of one of the most complete and self contained online gaming companies in the world, thus making AWMG uniquely positioned to take advantage of not only the profitable online gaming industry, but the financial transaction processing and gaming software development opportunities as well.

AWMG is involved in the Internet Gaming Industry, and the acquisition encompasses all of the elements necessary for the complete operation of casino gaming and sports book websites.

AWMG is a fully licensed and regulated gaming provider and ISP. We have been operating internet casinos and sports book sites since 1999 and currently operate over 30 gaming and 10 non-gaming web sites.

AWMG also operates Atlantic West Graphics and Atlantic West Hosting, which together offer a full compliment of regular and commercial web design and hosting services as well as e-mail and advertising services.

AWMG is planning a public offering shortly making this investment opportunity even more exciting.

Our Real Chance card is an effective way to attract and retain the online gambler, allowing our clientele fast access to cash, which is not easily attained on other gaming sites. We have also developed the Real Deal transaction processing system. This is the first transaction gateway specifically designed for the use of the online gaming industry and gives AWMG a significant advantage over conventional processors, where gaming is a secondary market for them.

The company has developed its own proprietary software and prides itself in writing all its own programming "In House".

AWMG has developed several technologies that are unique to the gaming industry, including significant advances in back-end technology as well as real time financial reporting.

AWMG operates several gaming related Internet Magazine sites designed to educate the gambling public and to steer them

towards its own wholly owned suite of online gaming and poker site portals. AWMG is also an ISP (Internet service provider) and have established communications technology that can provide reasonably priced bandwidth to the industry as well as lowering its cost of doing business.

Atlantic West Management offers the wise investor an opportunity to become part of what will be one of the world's first full service turn key internet gaming operations. With all of the processes under one umbrella, efficiency and profitability are assured.

AWMG'S online gaming portals are available world wide in many different languages. It will continue to concentrate its efforts in Europe and Asia until the gaming laws in the U.S. are changed. Currently there is proposed legislation ([HR 2046 Internet Gaming Regulation and Enforcement Act](#)) pending in Congress that will allow foreign operators as well as U.S. based online casinos and poker sites to operate legally in the U.S. A vote is expected shortly and seems to have the necessary support to pass.

Atlantic West Management is in the process of obtaining an offshore banking charter for the purpose of better serving the internet gaming industry, by providing direct merchant processing facilities, as well as establishing a Non-U.S. link to credit card and ACH processing. This is extremely important in light of last year's legislation regarding gaming transactions, and will also give the company access to the lucrative land based casino transaction processing business as well.

AWMG requires additional capital for advertising its complete service package and for the final development and roll-out of its multi player poker gaming software.

AWMG is unique in the internet gaming business in that it has operated several internet gaming sites for several "Land Based" Casinos and Gaming Interests.
