“THE ONLY WAY TO WIN THE LOTTERY IS TO OWN IT”

AWMG “PLACE YOUR CHIPS” LOTTERY DETAILS

1. **501c3 Non-profit** is the Sponsor of the Lottery: **AWMG Caribbean IT Scholarship Foundation, Inc.** Incorporated on December 28, 2015 - Florida Number N15000012172 U.S 501c3 EIN# 81-0961771 a U.S. 501c3 is a Non-Profit Foundation.
2. The **live weekly Lottery drawing** will be **Audited** by one of the Big 4 Accounting firms. Required Lottery audits **include Physical onsite monitoring** of each Lottery drawing, and the **Certification of Public Posting** of Results.
3. Segregated accounts held with JPMorgan Chase bank. Continuous oversight, supervision and **Audits of the 2 Segregated Accounts** (one for **Lottery Beneficiaries** and the other for the **Prize Pool**) is conducted by the same Selected Big 4 Accounting firm that will be auditing the weekly drawing. They also **audit** the required contribution of 40% of ticket sales revenue to each of the 2 Segregated Accounts.
4. **Live Video Broadcast** of each Lottery Drawing.
5. The **‘Certified’ Pick 6 Lottery Machine** – (Garron Chesapeake 6 Chamber)
6. **\$500,000 Surety bond**
7. Machine kept in a “level 5” Secure Location, defined as: (24/7 Attended Security Guard, and 24/7 Wireless Redundant Alarm System).

Starting out, the App will NOT be selling tickets for any of the existing lotteries available through current retailers in the US or other countries. Initially, the Pick 6 Lottery on the App is sponsored by a federally approved 501c3 for operating a Lottery. The Lottery Jackpot will rapidly become larger than most state lotteries and eventually, when the user base grows to the necessary size, the nonprofit will also offer its own Powerball Lottery which will ultimately carry a larger jackpot than mega-millions and the Powerball currently in play.

And, once the user base reaches a certain threshold, the various states and other jurisdictions will be given the opportunity to offer our tickets through their distribution network for a reasonable fee for distribution. These negotiated fees will be comparable to those normally paid to retail outlets and will naturally expand the App’s reach even further.

With respect to security, the lottery will be run under the fully audited supervision of one of the big 4 accounting firms just like all other lotteries and in full compliance with the strictest of all lottery rules and regulations including security requirements - in all jurisdictions. The tickets can be purchased by anyone in the world except residents of North Korea, Viet Nam and Saudi Arabia.
